Missile Stockpile Reliability Programs (SRP) – Shelf Life Status and Projections, October 2016

- Two of the slides summarize current and projected shelf life extensions for fielded out-of production missile inventories by model/variant.
- Future shelf life extensions that are **LIKELY** to occur, based on current data and SRP funding, are listed as **‘Projected’**.
- Future extensions that will not occur in the near future, require additional SRP testing, or are at risk (unfavorable data, funding shortfalls, etc) are listed as **‘Potential’**.

The current Program Budget Guidance is for full funding of [SRP](#) in FY17. Contributed by Mr. Garcia

Class V Issue and Turn-In Procedures for Using Units (4E-F45/645-F29 (DL))

[This course](#) is designed to instruct military personnel in the procedures to properly request, draw, and turn-in Class V materials for their units. This course prepares students for requesting and drawing Class V items for their unit. The subjects covered include ammunition authorizations, requests, issues, field accountability, sub-unit turn-ins, preparing ammunition for turn-in, reconciliation, and the amnesty program.

Audience: This course is intended for personnel who are designated to request, draw, and turn-in Class V materials for their unit.

Training Ammo Workbook

[These workbooks](#) are to help units to properly fill out required documents for turn-in, issue, and reconcile of training ammo. There are three documents; one is for doing training ammo documents and tracking them, one is for reconciling documents and the final one is for ammo combatloads. The workbooks were originally posted to [MilBook](#) by CW3 Williams.
